# Introduction

---

With this school year the Kalamazoo High School completes its first half century. In the earlier years, following the practice of the time, annual catalogues were issued, and in 1886 Superintendent Henry N. French compiled a catalogue of the schools to that date which gave accurate lists "of the officers and members of the District Board of Education; the Superintendents of Schools; the Principals and Teachers of the High School; together with a full list by classes and years of all the graduates of the High School, and those of the Training Department."

This pamphlet, from its accuracy and completeness, has been valuable to those connected with the schools, and interesting as an index of the growth of the schools and the city, but the edition was exhausted years ago. It has, therefore, seemed fitting to revise and republish the pamphlet, bringing its information down to date. The considerable volume which results may thus be considered a memorial of the fifty years of our High School and of the system of schools of which it is the head. We hope it will prove as interesting—and accurate—as the original pamphlet. The task of compilation has fallen chiefly upon Miss Annie D. Clarke to whom the credit is due for its prompt completion.

The growth of the school, indeed of all the schools, is reflected in the increasing number of graduates. In 1863, when the first class finished its course, the enrollment was 138 with an average attendance of less than 80. The average enrollment of all the schools of the city at that time was under 1,000, though the total enrollment was nearly 2,000, a discrepancy that suggests, besides the duplication by transfers, the possible influence upon numbers, in those days, of "winter schooling." In 1879, the number of pupils was 189; in 1889, 235. But the proportion of pupils continuing throughout the year had shown greater growth than the total enrollment. Meanwhile the number of pupils in all the schools had increased to 1,940 in 1879 and 3,133 ten years later. Today, excluding the kindergartens, it is 4,910, of which the High School enrolls 679.

Fifty years ago a small portion of "Old Union" housed all the High School classes. In 1881 a separate High School was built and to this an addition was made in 1891. The present building, completed in 1898, would now be inadequate had not branch schools for grades nine and ten been established in 1901 at Woodward Avenue, and in 1907 in the new Portage Street building. The High School enrollment in these two buildings this year will be greater than the total High School enrollment twenty years ago.

In strength of courses, efficiency of equipment and number of teachers, growth is just as noteworthy. In 1864, besides the Superintendent, who was also Principal, there were two regular teachers, and one special teacher for a part of each day. In 1886 the number was five. Today, besides the twenty-one

teachers in the Central building, fourteen are at other buildings; and in the Manual Training Department which has been a part of the school system since 1899 and now has a separate building, six of the ten instructors are giving all or part of their time to high school work.

But numbers and equipment simply give added opportunity. They do not make a school. The Kalamazoo High School has had an honored history and has cherished high standards. That its strength of scholarship, its power for good citizenship, will continue to grow in the next half century as in the past is the wish of all who have felt or helped to mould its influence.

## Preface to the 1886 Edition

---

The "reasons for the existence" of this little book may be briefly given. Prominent among them was a desire to preserve in separate and compact form, classified lists of all persons graduated from the two higher departments of the public schools, up to the present time, making a sort of **general** catalogue.

Many of the High School alumni have often requested the publication of such a pamphlet, and it has been undertaken, in great part, to meet this desire. Its convenience as a source of ready reference on anniversary occasions and class reunions, to say nothing of its value as an aid to the refreshing of old memories, and the recalling of old school and classmates, justifies its preparation. As the years go by, and class rapidly succeeds class, the individual student soon becomes lost in the crowd, and his or her personal place becomes a matter of doubt, resolvable only by a tedious search through old and musty records. Such search is often unrewarded, for the records are often faulty, sometimes mislaid, and not infrequently altogether lost. It is hoped that this form of perpetuating a **trustworthy** record, unbroken and correct, will prove successful, and that the service of a few in a wearisome hunting through the books, may save much labor to the many.

It has been thought eminently fitting, also, to give space herein to a complete list of those of our citizens who, since the organization of the District, have served as members of the Board of Education. This list is believed to be absolutely correct, and its value in many ways will increase with the lapse of time. The labor of classifying and recording the names of those who have so patiently and gratuitously given their time and careful attention to the educational interests of the village and of the city, has been a cheerful pleasure,—not at all a task. The propriety of giving a page or two to the chronological arrangement of the names of Superintendents, of Principals, and associate Teachers in High School grades, it is hoped will not be questioned. The teacher and those whom he taught, are so intimately related, that any dissociation of their names, in preparing a pamphlet of this kind, seemed unnatural, and as a matter of school history, if for no other reason, it is believed that this list will prove sufficiently valuable to warrant its insertion.

For much that is embodied herein, credit is due to ex-Superintendent Austin George, whose gleanings from the District records and from other sources have preceded my own. I trust that very few mistakes in names or in dates will be found. Great pains have been taken to secure accuracy, and with a hope that this has been measurably attained, and that, as a whole, the compilation will prove to be worth the time which has been expended, it is respectfully submitted.

HENRY N. FRENCH,

SUPT'S. OFFICE,

June, 1886.

## Members of Board of Education, 1859 to 1886

In accordance with an act of the Legislature, approved February 12th, 1859, the control of the school was taken from the Village Board and lodged in six trustees, who constitute a Board of Education, and who hold office for three years each. The first board was directed to be chosen as follows: Two for three years, two for two years, and two for one year; annually thereafter two trustees were to be elected. The first election under this law was held September 5th, 1859, and the following persons were elected: For three years, Hezekiah G. Wells and Israel Kellogg; for two years, David S. Walbridge and Curtis W. Hall; and for one year, Silas Hubbard and Frank Little. On the 8th of September the Board met and organized by electing the following officers: President, David S. Walbridge; Secretary, Frank Little; Treasurer, Hezekiah G. Wells. The composition of the Board, with its officers from its origin to the present time, is shown in the following table:

It is worthy of remark that during this period of twenty-seven years, only **thirty** different names appear in the above lists, and to this carefulness in selecting and keeping in office good men and representative citizens, is due whatever success the schools, as a whole, may have achieved. The wisdom of this policy, and also of that feature of it which requires that **both political parties** shall have an **equal representation** on the Board of Education, can hardly be questioned. Of these thirty men who have so faithfully served the District, all but nine are now living. Following are the names of those deceased:

Judge Hezekiah G. Wells.	Curtis W. Hall.	Col. Fred'k W. Curtenius.
Israel Kellogg.	Alfred Thomas.	William A. House.
Hon. David S. Walbridge.	Hon. Allen Potter,	Dr. Lebeus C. Chapin.

## Members of Board of Education, 1886 to 1909

Of the members of the Board of Education previous to 1886, only five survive: David Fisher, J. Davidson Burns, Abraham T. Metcalf, George M. Buck and Dallas Boudeman.

Of the membership since 1886, three have died: John DeVisser, Emily E. Pollard, Herman H. Schaberg. Henry E. Hoyt was Secretary and served until his death in February, 1900. John De Visser was then elected Secretary and served until January, 1908. After his death Howard H. Buckhout (not a member of the Board) was chosen as Secretary. S. O. H.
